

# EION BYTES

The official solution update of EION Wireless

## Innovative Wireless IoT Solution

### Connect your Remote Infrastructure

**WHAT'S INSIDE THIS ISSUE?**

**Innovative Wireless IoT Solution - 1**

**SmartRIM 5000 - 1**

Remote Monitoring and Control of fixed assets and infrastructure provides a great opportunity for improved efficiencies for highly distributed enterprises. However, every minute of downtime can translate to significant revenue losses in the Industrialized world, so being connected has a real impact on the bottom line.

EION Wireless provides solutions for monitoring remote assets, including Smart Grids, Pipeline Meters, Industrial Equipment, Telecom Equipment, and Smart City Infrastructure.

**EION SmartRIM 5000**  
*IoT-Enabled Remote Infrastructure Management*

- Smart Remote Infrastructure Management Device
- Sensor Aggregation Platform
- 8 Port Remote Power Relay System Auto-ping functionality
- GUI monitoring Dashboard
